

In order to accommodate our families and protect our community, we are allowing visitations and/or funeral services while practicing social distancing **and** requiring all visitors to wear face coverings.

For visitations, we will allow up to 48 people in our facility at one time. We will instruct all visitors to enter at the Chapel door and exit the back door. We will seat people in our Chapel maintaining the 6' distance by putting only 4 people (couples and or singles) on one row at opposite ends. We will skip a row and continue that seating pattern until maximum capacity. The family will be in a separate room. We will allow visitors to enter the family room up to a 10 person capacity (including the family).

Please limit your time with the family and maintain your distance.

For services, we will follow the same protocol but stay seated in the chapel for the service and enter/exit the Chapel door.
